Lead-time for new orders is 8-12 weeks!

Free Delivery on ALL ORDERS during SUMMER SALE PERIOD!

Prices published in this brochure are inclusive of VAT!

# TOMAS KITCHEN LIVING

## THE CASE & TABLE COLLECTION

Welcome to Tomas Kitchen Living, a British kitchen and furniture brand with a strong design identity, superb quality and genuine value.

There are beautiful showrooms in London, St Albans and Cambridge (where we also have our dedicated production centre).

CASE is a fabulous collection of free-standing cabinets. Many of the classic Tomas design hallmarks can be found here: clean-lines, timeless style, tactile design details, great colours and uncompromising quality of materials and workmanship.

CASES naturally complement the distinctive look of our lovely kitchens, yet they also work very well as stand alone pieces in many interior settings. Also featured in this brochure, are some truly wonderful tables. For dining, we have the TURNER TABLES (named after the solid wood 'turned' legs) and for the lounge, check out guitar plectrum shaped STRUM TABLES!

Our fabulous kitchen collection is presented in a different brochure, where you'll discover some other members of the CASE family, such as the popular teaCASE and bottleCASE.

My team and I are looking forward to hearing from you soon, so please do not hesitate to get in contact for further information and to arrange a meeting, either at one of our showrooms or at your home.

With Best Wishes

Tomas Hinton  
DESIGNER | DIRECTOR

# sheerCASE

*A wonderful collection of free-standing cabinets for living kitchen areas and beyond...*

sheerCASE by Tomas is perfect as a sideboard, additional kitchen storage or a media cabinet. It can also be deployed in virtually any other room - such as a home-study, hallways and the bedroom.

The sleekness and clean-lines are achieved thanks to the handle-less SHEER design details. Doors and top drawer fronts have a chamfered edge and are lowered to facilitate handle-less opening. Between the top of the door and the top panel a continuous rail is revealed, which can either match the top or be in a contrasting metallic finish.

There are over eighty standard sizes, two standard heights, 610 and 910mm and two basic shapes:

1. Straight with soft square corners
2. Fully curved with doors going back to the wall.

The solid tops and bottom panels are made from solid oak, ash or walnut and also feature the distinctive fingertip edge profile, which softens the look and improves access for door opening.

As standard, the 22mm door and drawer fronts are beautifully lacquered in your choice of Tomas colour. Special colours and book-matched wood veneers are also an option.

## KEY FEATURES

- Handle-less 'Sheer' doors and drawer fronts
- Solid Oak, Ash or Walnut Tops and Base Panels
- Panels in Tomas Colours, Any Colour or Book Matched Veneers
- Fully Curved Doors or Soft-Square Corners
- Plywood Carcases
- Solid Turned Bullet Legs (or plinths)
- Eighty Two Standard Shapes
- Two Standard Height Options
- Bespoke Shapes and Sizes on Request

# boxCASE

*A characterful box shelving system with many size options and finishes to choose from.*

boxCASE is an extensive collection of solid oak, ash or walnut modular box shelves. They can be free-standing or incorporated into a fitted kitchen arrangement, either as a base element or with 760H wall elements.

Solid wood, beautiful Abstract Five Colours and a neat range of inserts are combined to create wonderfully individual pieces to suit you and your space perfectly.

Each piece is derived from a series of standardised cube forms, each measuring 358mmx358mm (internally). From this start point we build to a maximum size of 4x4 cubes.

Each boxCASE is named after its number of cubes. The height goes before the width, so to the immediate right we have a 2x3... simple as that!

## KEY FEATURES

- Solid Oak, Ash or Walnut Dove-Tailed Cabinet Construction
- Handle-less 'Sheer' doors
- Solid Turned Bullet Legs (or plinths)
- Four Standard Heights
- Four Standard Widths
- Bespoke Shapes and Sizes on Request

Tomas Kitchen  
arrangement*”

#### ACCESSORIES FOR boxCASE

Once the size is determined, you can choose from a range of optional inserts and (if required) where to position handle-less SHEER doors. If it's a free-standing boxCASE, you'll also need solid turned bullet legs or a fixed plinth.

1. TINY TABLE (opposite) horizontally divides the 358 aperture into two sections.
2. BOTTLE X stores up to 12 bottles and can be repositioned in any of the cubes.
3. PAPERTIDY can stand or lie down - perfect for magazines and papers.
4. BULLET LEGS turned from solid oak, ash or walnut.
5. SHEER handle-less doors to cover one or two recesses are finished in Abstract Five Colours or a colour of your choosing.

# Abstract Five Colours

*Earthy, original colours,  
inspired by five abstract paintings*

The Abstract Five Colours get their unusual name in a rather interesting way. The story begins with Tomas Hinton's father and grandfather who were both talented artists. Their beautiful abstract oil paintings have always hung on the walls of Tomas's home, providing warmth, colour and inspiration. So when it came to creating colours, five of the paintings were selected to create a unique palette of earthy and original colours.

It's an interesting way to create colour for the furniture and kitchen collections and it's a lovely story to tell, but best of all the colours are truly beautiful.

The colours shown here are only indicative and it is vital to see real paint swatches before choosing. The range is often updated and any colour can be specified or matched.

The solid wood examples represent the choices for tables, sheerCASE tops and boxCASE.

# Turner Tables

*Solid oak, ash or walnut fixed leaf dining tables in an extensive range of sizes.*

TURNER TABLES by Tomas are an extensive collection of solid oak, ash or walnut tables.

Lovingly hand-built at Tomas Cambridge, these beautiful pieces are available in an exceptionally wide range of sizes - from 700x700 to 1100x2400.

An optional range of matching benches has also been created with a choice of upholstered cushions.

Choose between 'satin' or 'matte oil' and your TURNER TABLE is all set for many meals and happy occasions for years to come.

## KEY FEATURES

- Solid Oak, Ash or Walnut Full Stave Tops
- Oiled, Soaped or Lacquered Finishes
- Solid Turned Legs
- Dining or Lounge Height
- 30 Standard Fixed Leaf Sizes
- Bespoke Shapes and Sizes on Request

#### **SOME DESIGN DETAILS**

A subtle shadow gap is formed as the solid oak support rails meet the turned and tapered solid oak legs.

The contour of the round the leg is followed through to the 30mm table top, resulting in the distinctive 150mm radius corners.

The simple square edge profile is softened with a 3mm radius.

The result is simply beautiful - tactile, timeless, and very comfortable to sit at.

### Take a Seat

Thanks to the simple, clean lines and timeless looks, it is easy to mix and match dining chairs with Turner Tables.

Tomas Kitchen Living are dealers for some top notch Danish furniture and lighting brands, such as Carl Hansen & Son who make beautiful chairs that can be seen in this brochure.

Another great seating option to consider is the Turner Bench, which is designed to fit between the legs on the Turner Table. If required, you may also order a cushion from our range of Kvadrat fabrics. Alternatively, the solid oak top can be left exposed, with maybe scattered cushions here and there for added comfort and height for the little ones.

### Shapes & Sizes

Standard Dining Table Height is 720mm and shown at the back of this brochure are all the standard sizes for the tops. If the size you require does not appear, we can bespoke a table that is just perfect for your space.

### Turner Lounge Tables

By simply fitting bench legs to a Turner Table top, Lounge Tables are easily created... in all of the sizes! This gives great flexibility and the opportunity to re-purpose tables in the future.

## THE ROUND TABLE

For a compact space or a romantic dinner for two, THE ROUND TABLE could be just perfect.

As you might expect, attention to design details and quality is at the heart of this wonderful table.

Available in oak, ash and walnut in 700, 800 and 900mm diameter.

“

*Attention to design  
details and quality  
is at the heart of this  
wonderful table...*

---

# Strum Tables

*Lovely lounge tables with  
rock 'n' roll attitude...  
take your pick!*

When considering options for lounge tables an interesting idea came along... a table in the shape of a giant guitar pick ! As the idea grew and the first prototypes evolved, it became clear that we had something special. Even without the fun of the 'plectrum connection', the tables worked as a serious piece of furniture in their own right... and so the STRUM TABLES came to be!

The rounded edges of these tables, so pleasing to the eye, are also really comfortable to live with. The triangular shape provides enough surface - without getting in the way and from any angle, whether in groups or standing alone they look fantastic!

Available as standard in solid Oak, Ash, Walnut. Also tops can be in Tomas Colours with contrasting wood legs can be requested. The choice is yours so take your pick!

## KEY FEATURES

- Solid Oak, Ash or Walnut Full Stave Tops
- Oiled, Soaped or Tinted Oil Finishes
- Exquisitely Tapered Turned Legs
- Available in Sets or Individually
- Nesting
- Bespoke Shapes and Sizes on Request

“

The rounded edges, so  
pleasing to the eye, are  
also really comfortable  
to live with...

**Sizes**

There are three STRUM TABLE sizes, which can be ordered individually or as a set of three.

ST1 365h 400w 450d

ST2 400h 600w 675d

ST3 445h 800w 900d

Sets of three can be nested in these three neat ways:  
 1. Randomly (main image)  
 2. Fully (inset right)  
 3. Partially (inset far right)

**Finishes**

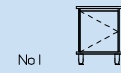

As standard Strum Tables come in solid Oak, Ash and Walnut and have with a clear oiled finish.

With the oak, there are also options for a soaped finish or tinted oils: Drifted Oak, Smoked Oak and Blackened Oak.

Everything can be beautifully matched or, for a more vibrant feel, you may decide to mix it up a little.
